

Ready for Launch?

Pathways to In-Demand Careers After Graduation

Special event for 11th & 12th grade parents thinking about their student's future after high school

Join representatives from the [Ohio Technical Centers](#) and [At The Core](#) for an informative webinar to learn about powerful and exciting opportunities for graduating seniors including the adult programs at Ohio's Technical Centers.

- *Today's students can fast-track their success using postsecondary education options right in your area - at Ohio Technical Centers.*
- *All career technical programs are built on direct ties to business and industry.*
- *All programs leverage emerging technologies to support in-demand careers.*
- *The skills a student learns can be immediately put to use!*

Tuesday, January 17, 2023 6:30 - 8:00 p.m.

[RSVP Now](#)

Or by going to www.GettingAtTheCore.com/events/list/

Although intended for 11th & 12th grade parents, all are welcome!

Have you heard the news? In-demand, well-paid jobs in Ohio are going unfilled. Teens and families need information about these 21st century career options and how to gain the skills for the jobs!

High school graduation is right around the corner for many seniors in Ohio. Learn more about this option for postsecondary education so your family can make an informed decision on the best next step for your student.

There are 49 Ohio Technical Centers who provide post-secondary educational opportunities in their communities.

Examples of programs include:

- Healthcare (medical assisting, nursing, billing and coding, phlebotomy)
- Welding
- HVAC
- Public safety (police, security, firefighter, paramedic, EMT)
- Commercial drivers
- Computers (cybersecurity, software training)
- Culinary
- Automation/robotics maintenance
- and more!!
